

MEGABLUE[®] Rotary Diaphragm 'Suction Lift' Condensate Pump

MEGA BLUE The 'biggest muscle' suction lift condensate pump on the market - capable of up to a 20 metre head. Being a 'rotary diaphragm' motor means there is no required filter in the reservoir to clog or a float to stick - airborne particles go straight through...whereas with a piston motor type...the pump would fail!

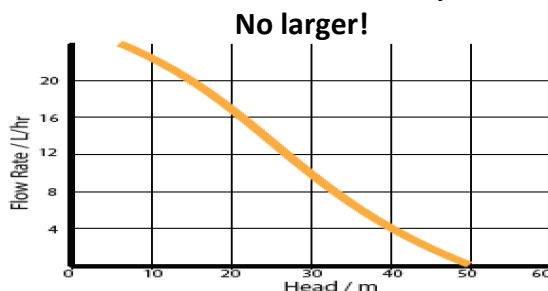

Mega Blue X87-813 RESERVOIR KIT

- Ideal for air conditioning up to 25kW
- Reservoir Kit
- 27dBA -Silent Running
- 3 year warranty
- Max Flow: 25 litres p/hour @ zero lift
- Max Head: 20m (cut off-no flow)
- Max suction lift = 1 meter but with extension = 6 meters
- Use **only** 6mm I.D. reinforced or thick wall clear tube
- Height: 64mm Length: 276mm Width: 51mm
- Reservoir: H:64mm L:276mm W:70mm

Max Discharge:	20 m (cut-off – no flow)
Max Flow Rate:	25 l/hr
Electrical:	230V 50/60Hz

IMPORTANT: Use on A/C units up to 25kW... No larger!

Vertical (H) of discharge	Horizontal length of discharge			
	0m(l/h)	5m(l/h)	10m(l/h)	15m(l/h)
1m	30	28	25	12
5m	28	20	12	5
10m	16	6	3	0
15m	8	2	0	0

Mega Blue X87-814 TEMPERATURE SENSOR

- Ideal for air conditioning up to 30kW
- 2 Temperature Sensor Kit
- 27dBA -Silent Running
- 3 year warranty
- Max Flow: 25 litres p/hour @ zero lift
- Max Head: 20m (cut off-no flow)
- Max suction lift = 1 meter but with extension = 6 meters
- Use **only** 6mm I.D. reinforced or clear tube
- Height: 64mm Length: 276mm Width: 51mm

TIP: For the 'Quietest' Running... always select the Reservoir Model

**THE BEST SUCK PUMP IN TOWN! ...NO Brrrrrrrrr NOISE!
NO FLOAT TO STICK!
NO FILTER TO CLOG!
3 YEAR WARRANTY**

**IMPORTANT
INSTALLATION BY HVAC-R
PROFESSIONALS ONLY**

NOTE: 5 METRE SENSOR EXTENSION IS AVAILABLE
