

HW-9 Water Alarm

Water alarm device HW-9. The water alarm device reliably detects water and water films. It helps prevent water damage to air conditioning units installed in ceilings if the condensate water pump is defective or water drains are clogged up. Network-independent, works with 9V battery. It is simple and sturdy in design and low in price.

- Remote sensor detects water and sounds alarm
- Sensor and alarm connected by 1.83 m of sensor line
- Solid state electronics powered by 9V battery (not included)
- 5-decibel alarm sounds for 3 days
- Low battery warning
